PROFESSIONAL SUMMARY

Web developer and creative designer pursuing a Bachelor of Technology in Multimedia and Web Technology. Combines hands-on PHP and WordPress web development experience with a strong graphic design and branding background, gained across web development, creative design, and digital marketing roles. Builds on this technical foundation with introductory knowledge of AI (OpenAI) and Cybersecurity (Cisco Networking Academy). Comfortable working across the full production cycle from front-end design and web development to SEO, content, and campaign delivery, and collaborating closely with development teams.

WORK EXPERIENCE

- Social Media Executive & Graphic Designer** / *Aries Services* Mar 2024 – Present
- Design and develop web pages and digital assets, supporting web design and development alongside core marketing duties.
 - Plan, schedule, and manage content across Facebook, Instagram, LinkedIn, and TikTok.
 - Set up, run, and monitor paid ad campaigns and track performance across social platforms.
 - Create original graphic and campaign content from concept through to publication.
- Creative Designer** / *RAPS Graphics Solutions* Oct 2021 – Jan 2024
- Developed graphics and layouts for both web and print products.
 - Designed logos and brand identity assets for client projects.
 - Collaborated directly with development teams to deliver web-ready design assets.
- Web Developer — Internship** / *Mahapola Ports & Maritime Academy* Mar 2020 – Jan 2021
- Managed website appearance, structure, and content updates.
 - Supported SEO content and marketing initiatives to improve site visibility.
 - Contributed to brand and logo design, working alongside the development team.
- ICT Technician — Internship** / *Vocational Training Institute* Jun 2018 – Jan 2019
- Performed word processing, spreadsheet preparation, and database management.
 - Managed internet and email operations, plus web development and print production tasks.
